H-SOURCE RELEASES MARKETPLACE PLATFORM SOFTWARE VERSION 2.5

VANCOUVER, BRITISH COLUMBIA – December 21, 2015 – H-Source Holdings Ltd. (CSE: HSI) (the “**Company**” or “**H-Source**”) is pleased to announce the commercialization of its proprietary hospital-to-hospital marketplace network. H-Source has turned on revenue creation and tracking capabilities built into the marketplace platform for software version 2.5 after successful pilot tracking transactions through the system for its member hospitals.

By the release of software version 2.5, H-Source is focusing more resources on sales and marketing activities to increase support for current members while moving forward implementing the platform to a backlog of newly committed members as well as signing up new hospitals and medical facilities, expanding both inventory listings and member hospitals. As of now, H-Source has more than 40 medical facilities as part of our marketplace network.

“With the release of Version 2.5 of our software platform, we are poised to sign up more medical facilities and expand our marketplace network in the first quarter of 2016,” commented Mr. John Kupice, CEO and Director of H-Source. “We will have a growing network of medical facilities with a common goal to reducing operating costs and medical waste by participating in our network.”

About H-Source Holdings Inc.

H-Source Holdings Ltd. is a technology company operating within the healthcare industry through its wholly owned subsidiary, H-Source, Inc. The Company has developed a transaction platform that provides a private, secure and trusted marketplace for member hospitals to buy, sell and transfer excess inventory supplies and capital equipment with each other.
